Chemical hygiene training requirements are detailed in the EHS-MS training system, which can be accessed at <http://ehs.mit.edu/site/training>. The following components are required if you indicate in the Training Needs Assessment within the training system that you use potentially hazardous chemicals in a laboratory, or you are a Principal Investigator or Supervisor for those who use potentially hazardous chemicals in a laboratory. Personnel who will not enter a laboratory or supervise those who will need access to a laboratory must complete the Training Needs Assessment, read the Notice to All Personnel and complete this form.

Check the box to confirm the applicant has completed the training requirements: (Lab personnel, check when complete. Non lab personnel, N/A if not applicable.)

- Logged into the MIT EHS training website to complete their Training Needs Assessment located at <http://ehs.mit.edu/site/training>. Should be reviewed and updated annually thereafter.
- Completed lab-specific safety training (110c) with Lab Environment, Health and Safety (EHS) Rep or Principal Investigator. Required before beginning work with potentially hazardous chemicals and annually thereafter.
- General Chemical Hygiene Training – can be taken as a web-based course or taken by attending a class offered by the Environment, Health and Safety (EHS) Office. This course is required only once before beginning work with potentially hazardous chemicals in a laboratory.
- Managing Hazardous Waste – can be taken as a web-based course or taken by attending a class offered by the EHS Office. Required before beginning work with potentially hazardous chemicals and annually thereafter.
- Read & fully understands the Plasma Science and Fusion Center Chemical Hygiene Plan (111s)
